EDUCATION

Informatics Technology Engineering University of Aleppo

08/2018 - 09/2023

Syria/Aleppo

PERSONAL PROJECTS

E commerce web applications (2022)

- This project I've made it by using MERN and Integrate it with payment gateways using stripe JS in this project there are categories and when I click to any category it will display full page of that category and we can filter Items, and select the product we want of course there are control panel for admin that only admin can add or delete or update a product and so many more options.

What's App clone using MERN Stack (2021)

- This is a project made with MERN stack (MongoDB, Express, React, Node), contains three pages: sign, signup and chat. Functionalities: User api, real time chat, create and delete rooms, search for messages and rooms, I use Rest api to chat so I can update the chat and delete it.

News website (2020)

- This project made with nodejs express and ejs where the data comes from external api the main features of this project that you can choose a specific articles you want and when this articles happen and where so you can have a full view of specific articles.

EXPERIENCE

Backend developer Remotely work

01/2021 - Present

Achievements/Tasks

- Maintain and fix bugs in many apps
- Write the web services and API's
- Write a Rest API's using Nodejs and Express

Junior Backend developer local company

04/2019 - 07/2020

Aleppo

Achievements/Tasks

- Write reusable, testable, and efficient code.
- Design and implementation of low-latency, high-availability, and performant applications
- Integration of data storage solutions No-sql databases,
- Implementation of security and data protection

SKILLS

JavaScript

Testing

Clean Code

Database

SQL

Nosql

MongoDB

Node-js

Express

Back-end

Git/Github

MySQL

Firebase

Windows Command Prompt

Algorithm

Data structure

Problem solving

React-js

Intermediate Fornt-end knowledge

Authentication and security

ACHIEVEMENTS

ACM CONTESTANT (2019 - 2020)

4th place two times at the local contest & 25th place in the national contest

Qualified for the Syrian Contest two times and hope to be in ACPC soon

Solve almost 1500 Programming problems related intermediate and advance Algorithm and data Structure

on online site like (codeforces - hacker rank- codeChef)

c++/Advance Algorithm/ Data Structure

LANGUAGES

English
